Single plank

With RUSTICO VARIO, we combine rustic grading with hand-finished dovetail joints: the given mix ratio - three planks with and three planks without dovetail - can be easily adapted by using more normal planks.

This centuries-old timber joint has always been synonymous with craftsmanship and accentuates the original charm of the floor. Design your own individual room with your individual and unique plank combination.

“The dovetail, a sign of the highest level of craftsmanship”.

Please find further information on RUSTICO VARIO or other tilo parquet floors in our parquet catalog available in specialist shops or at www.tilo.com.
